

## HOODOO HOUSE BREAKS UP THREE HAPPY HOMES

STRANGE COINCIDENCE THAT  
HAPPENS TO RESIDENTS  
OF SAME HOUSE.

Situated in the heart of the residence district in this city there is a house known to the members of that neighborhood as the "hoodoo house." During the last year three married couples have resided in this dwelling and inside of a few months after taking up their residence therein, trouble has arisen causing a separation. The first couple to have their domestic bliss disturbed arrived in this city just about a year ago, coming from Goldfield. The head of the house made frequent trips to the southern city, as his business necessitated, and returning one evening, or rather early in the morning, by auto from Goldfield, he was somewhat surprised to notice a male visitor making his exit in a costume somewhat decolleté. A separation followed and in the course of a few months a divorce was granted.

Couple No. 2 moved into the dwelling after it had been vacant about a month. They had only been married a short time and everything went along swimmingly. The lady of the house was called to the coast by the illness of a relative and after several weeks' stay returned. Her better half was not expecting her for she had sent no notice that she was returning. It was on a Sunday that she arrived and on proceeding to her home was somewhat surprised and also angered to find a strange woman installed there as housekeeper. After a short and spirited dispute the strange female decamped and when hubby returned from his work that evening, the neighbors were entertained by a moonlight picnic of the old fashioned sort. A divorce was also granted in this case.

The last residents of the "hoodoo house" moved in about two months ago and since then their life is not what might be called one of "peaches and cream." When hubby would leave in the evening wifey would follow in a short time and for about a month both enjoyed themselves in their own way. The climax came several weeks ago when the head of the house accompanied by another woman, and the lady of the house accompanied by another man, met in one of the back streets. A battle royal ensued in which both strangers received black eyes. A heart-to-heart conference was held and the once happy family decided that it was best to separate and since then the "hoodoo" house has been without an occupant.

## LEASERS IN MANHATTAN ARE GETTING BUSY

BIG CLEAN-UPS ON THE PLACER  
CLAIMS CONTINUE—NEARLY  
EVERY LEASE WORKING.

The travel to Manhattan is steadily increasing and each day's stage leaves this city loaded to the guards. Not only is the stage conveying passengers to the placer camp, but automobiles with their full quota of travelers are constantly on the road. The majority of the visitors spend only a few days there and then make a hurried trip to their homes and in a short time are back with funds to purchase a lease or other properties. Arrivals from the north yesterday stated that work was being carried on on almost every lease in the gulch and that remarkable clean-ups are being made daily. The quartz mines are also commanding attention owing to the recent strikes made at depth and the owners of adjoining leases are making preparations to resume work on their abandoned holdings.

## HOTEL ARRIVALS

**MIZPAH HOTEL.**  
Leon J. Moore, G. J. Kenny, San Francisco; L. Della Orto, Los Angeles; John Salsberry, George E. Holesworth, Reno; R. R. Robinson, Frank W. Ganghan, Goldfield; Frank Oliver, Goldfield.

**PALACE HOTEL.**  
C. S. Robbins, Goldfield; D. S. Johnson, Geo. Durgan, Berlin; Mrs. I. L. McGary, Helena; W. F. Tait, Goldfield.

## ONE PROPERTY HAS LARGE ORE BODY IN SIGHT

BERLIN MILL IS WORKING OVER-  
TIME ON ORE FROM BIG  
LEDGE.

D. S. Johnson, superintendent of the Berlin mine and George Durgan of Goldfield, arrived last evening from Berlin, where Mr. Durgan spent a week in looking over the district. He speaks very highly of the various properties there, especially the big company which is operating its mill where three shifts are employed to handle the output of the mine.

"On the 100-foot level of the mine," said Mr. Durgan, "they have opened up a ledge for over 400 feet. This ore body will average about five feet in width and carries excellent values. A raise has been completed from the 400-foot level to the 100-foot level and is in ore the entire distance. About forty men are employed in both the mine and mill and as soon as the big ledge is properly blocked out additional employees will be added. The mill has a capacity of thirty stamps, but only twenty are being dropped at the present.

"A number of other companies are working in a vigorous manner and before long the lone district will be coming to the front for not only the quartz properties but the placer workings are attracting attention."

## FOUR MILLS ARE IN OPERATION AT ROUND MOUNTAIN

HYDRAULIC CAMP IS ACTIVELY  
ENGAGED IN MINING  
OPERATIONS.

"Round Mountain now has four mills, that are grinding the ore daily," said F. H. Gove, a prominent merchant of that camp, yesterday. "They are the Sphinx, Round Mountain Mining, Fairview and the plant of the Solid Gold lease on the Daisy. The Fairview only resumed operations several weeks ago, and since that time has been working continually. They are crushing their own ore which is better than a good grade in quality. Reece Wampler, president of the company, has recently moved to Round Mountain from Goldfield, and will make his permanent home there in order to give his entire time to the workings of the company.

"Stofelt and Morgan, who made a strike two weeks ago on the Blue Jacket have between 2500 and 3000 sacks of ore on the dump. They are sinking on the ledge, which averages about two and one-half feet of a good quality ore.

"The entire district looks good and all the property owners are working away and saying nothing. A number of other strikes have been reported recently and from the appearances of the properties that are now being operated several others of a sensation nature should be made in the near future."

Mr. Gove leaves this morning for the coast where after spending several days attending to business he will return to the hydraulic camp.

## FINE PROGRAM BAPTIST CHURCH LAST EVENING

YOUNGER SET ENTERTAIN IN A  
MANNER THAT PROVIDED  
ENJOYMENT FOR ALL.

The social given by the Young People's society of the Christian Endeavors of the Baptist church last evening was largely attended and a good time enjoyed by all. An excellent program was rendered by the young people and was followed by the customary good eat. Then came games and more entertainment. This is the first affair that has been given by the younger members of the Christian Endeavors and the success it met with is a tribute to the efforts of those who had charge of the affair.

"Promotion Stock" and "Treasury Stock" rubber stamps for sale at this office. These stamps are required to be used by the new law.

## MINERS' HALL WILL BE BOWER OF BEAUTY

CAPTAIN W. K. WISE ACTIVELY  
ENGAGED IN WORK OF  
DECORATING.

Captain W. K. Wise, with his corps of assistants is busily engaged in decorating the Miners Exchange hall for the grand anniversary ball of the Elks that comes off Thursday evening. The hall will be a perfect bower of beauty on that eventful evening for thousands of feet of white and purple crepe paper are being used in a most artistic manner. A minute description of the room is impossible and besides it would not do credit to the work of Mr. Wise.

When the matter of decorating was turned over to him he stated that he would surpass his efforts of last year. This did not seem possible at first, but a visit yesterday to the scene of his labors shows that he has kept his word.

The invitations for the affair are being much sought after and the ball gives promise of being the event of the season.

## LAW ANNOTATOR APPOINTMENT

COMPILATION OF STATUTES OF  
STATE TO BE MADE BY  
EDWARD PATRICK.

Edward T. Patrick, of Goldfield and a frequent visitor of Reno, was appointed Saturday by the justices of the supreme court to assist them in the compilation and annotation of the statutes of the state under the provisions of the law recently instituted by the legislature.

Having had fifteen years' experience with one of the leading law publishing firms in the country, and having annotated the decisions of more than half the states in the union, he is regarded as eminently fitted for the duties for which he has just been appointed.

The justices are reported as having declared that they are intending to make this revision and compilation of the Nevada statutes the best possible, that it may prove of incalculable benefit to the state. Some of the prominent lawyers of Nevada are to be consulted in this work.

Mr. Patrick is said to have recently prepared and published a table of citations of Nevada cases in the Nevada reports, which is considered of great worth to the profession and his Digest of all Nevada Reports, nearly completed, is anticipated as a work to be of much assistance in the compilation and annotation of the statutes.

## "ANOTHER MAN FOR BREAKFAST THIS MORNING"

The Bodie Miner tells of the boom days in the good old time past:

While sitting around the fireside in the winter evenings the stories of the days "when Bodie was young" are many and a recital of some of them would make interesting reading, even at this date. The custom at that time was to have two or three funerals every day of men who had died with their boots on, and inquests developed little other than the fact that the subject was "dead," beyond all possibility of resurrection, and "couldn't tell how it happened." Like all frontier mining camps the "man for breakfast" was considered of not more than ordinary importance and the citizens attended to their business affairs with as much sang froid as if shooting irons and had men were unknown.

In this connection a story is told of a good woman who lived in Bodie to see its rise, decline and will likely witness its re-awakening. Her husband was engaged in the mercantile business and to accommodate some of his employees, who were unable to secure the desired accommodations, the wife made arrangements to temporarily supply them with meals. She had been here but a few weeks when a shooting affray took place and one of the young men, on arriving in the morning at the house, remarked: "We have another man for breakfast." Another plate was added and the meal was in progress when the lady desired to know where was "the other man for breakfast?" Imagine her chagrin when she learned that it was just another case for the coroner.

## PERSONAL

Frank Tait is over from Goldfield. Mrs. I. L. McGarry came in yesterday from Helena.

Russell Williams has returned from a business trip to Sacramento. George Durgan, who came in from Berlin last evening, will return to his home in Goldfield this morning.

R. B. Govan, manager of the Mizpah hotel, left yesterday for Walley Springs, where he will spend several weeks.

Jack Salsberry of Reno arrived in this burg last evening. He has been transacting business in Goldfield for the past few days.

F. H. Grove, the Round Mountain merchant, leaves this morning for San Francisco, where he will transact business for several days.

C. K. Jarvis, who is operating the King Solomon group of mines, thirty-five miles north of this city, came in from that district yesterday.

Mr. and Mrs. Thomas G. Murphy came in from Helena yesterday afternoon and proceeded on to Goldfield. Mr. Murphy will return to this city today.

Contractor George E. Holesworth of Reno, came over from Goldfield last evening. He will spend today in this city and return to the north tomorrow.

## PIONEER LAID TO REST.

The remains of Mrs. Sarah Matilda Beaton, the aged pioneer lady who passed away Monday evening, were laid away yesterday afternoon at the city cemetery. A large number of relatives and acquaintances escorted the body to its last resting place. The services were held at the residence of Mrs. E. A. Pomeroy, a daughter of the deceased.

## JOHNNIE COMPANY MAKES IMPROVEMENTS AT MINES

A crusher with a daily capacity of 100 tons is being installed at the mine of the Johnnie Mining and Milling company.

Another improvement is the installation of a storage battery system for lighting all parts of the mine, as well as the mine buildings.

The company has built a retort room for clean-ups which are to be made at intervals of two or three weeks, a club house for the mill men and residences for five families.

At the 700-foot level a shoot of ore eighteen feet wide and with values running \$10 to \$15 a ton, has been uncovered.

The mine was operated only about eighteen days last month because of interruptions incident to the making of improvements, but it is expected the output for the month will be \$12,000 to \$14,000, that of the last month having been \$10,050.

Fresh pastry daily at City Bakery. Opposite Tonopah Club. 3-19-11

## NOTICE TO THE PUBLIC.

Notice is hereby given that all patrons of the Tonopah Sewerage and Drainage company are notified that all services must be paid
